

Jude completed the “Kids Summer Challenge” he heard about, where he would have to run/walk/swim/cycle a mile a day in August to raise money for children with cancer - “Young Lives Vs Cancer.” He ran every single day, even after football matches, swimming fun and long days out - he smashed it! 31 miles in total!

He got his PB of 6.59 on the final day where he included his last mile within junior park run 2k! They also gave him a little shout out and in total he raised £729 for this charity!

Eli decided to do a bake sale to raise money for children impacted by war around the world and who are less fortunate than him. We researched for charities and he decided to raise money for save the children. He spent a long time baking on Saturday and did a bake sale, he raised over £50.

Harley has helped make up the boxes of poppies and make sure they all contain enough stock and pins, and affix the QR codes to each box, she has helped to deliver them to schools and business. She has helped man the stalls and speak to the public, everyday single day in half term was spent helping out in various locations and without complaint. Harley has also attended several memorial services in and around Worthing and has always done so with upmost respect. She really has been my number one helper throughout.

Seth has been litter picking at the beach for the last few years, we visit the beach very often and always manage to fill a bag with litter. (Some examples are: Plastic, fishing line, shoes, goggles, hats, washing up sponges and even pairs of pants!) Seth really enjoys this and it makes him happy to keep the beach tidy, but to also help the massive amount of sea life that can be affected by rubbish that finds its way into our sea.

I would like to nominate Poppy as a community star. Last week, a neighbour of ours had a close relative who was very poorly in hospital and Poppy made the family a batch of cupcakes all by herself to try and cheer them up a little. They were greatly received!
