

West Park C.E. Primary School

PAUL STANLEY – CO-OPTED GOVERNOR

My association with West Park, started when my elder son was a pupil here from 1993. I was very involved with the PTA all through the time both my boys attended, helped with cricket coaching and my wife was a Parent Governor.

Currently I am part of the Premises Team, looking after the maintenance of and alterations to the school, utilising the budget to the best advantage possible.

I have worked in the construction industry for most of my working life and have thoroughly enjoyed bringing that expertise to my role at West Park.

Most of my spare time is spent renovating an old bungalow, but I make sure to find a lot of time for my four grandchildren. I also play badminton regularly and enjoy modelling (not the catwalk kind).
