

JULIETTE WEBB – CHAIR OF GOVERNORS

I am currently the Chair of Governors at West Park C of E Primary School. My daughter is at school here and my son attends a local secondary school following his time at West Park. I previously spent a number of years with the Friends of West Park which involved working closely with staff, parents and children at West Park to run successful fundraising events. This is my third year as part of the Board of Governors.

It is a pleasure to support the entire team here. I have previously worked as a Quality Manager within the engineering sector and now work in HR for a local consultancy. In my work I have to focus on process, procedure and legalities along with auditing and building effective working relationships. I have previously worked within training and change management for international businesses. This experience enables me to look at current ways of working and help to improve them where necessary.

When I have the time, I enjoy reading, theatre, baking, going to the beach and travelling. As a family we like to support local groups, charities and events. The support and encouragement given to my children at West Park C of E Primary School makes me want to use my professional experience (where possible) to continue to enable the school to improve the ways it educates all the children in a nurturing, safe environment.
